

Milieu Treatment Counselors

MTCs supervise the youth in Orchard Place's residential treatment center. The youth served in this program are ages 10-17 and have extensive trauma histories. The goal of the program is to improve and stabilize each child.

Facts About MTC's

Developing Strong Futures

MTC's are actively teaching the youth healthy coping skills by enhancing

- Communication skills
- Anger management skills
- Problem solving skills
- Social development skills

Contributing to a Team

Treatment Counselors work together to keep the kids days structured and provide the best possible care to the youth at Orchard Place

Training and Development

The MTC's gain a lot of experience working in the mental health field. The career ladder assists with the growth and development of MTC's

Career Ladder
