

Paramedic

If an educational program offered by Mercy College is designed to meet or is advertised as meeting the educational requirements for a specific professional license or certification which is required for employment in the related profession, then Mercy must inform prospective and enrolled student of the following:

1. Each state in which the curriculum of the educational program meets the educational requirements for licensure or certification
2. Each state in which the curriculum of the educational program does not meet the educational requirements for licensure or certification
3. Each state in which the institution has not made a determination on whether the curriculum of the educational program meets the educational requirements for licensure or certification

In addition to the general disclosure identified above, if while taking courses at Mercy College a prospective student or enrolled student will be located in a state where the educational program does not meet or where the College has not made a determination on whether the curriculum meets the educational requirements, then Mercy College must provide the prospective student or enrolled student with personal, written notice.

NOTES:

1. The Mercy College of Health Sciences (MCHS) Paramedic Program is accredited by the Committee on Accreditation of Allied Health Education Programs (CAAHEP) and the CAAHEP aligned, Committee on the Accreditation of Emergency Medical Service Professions (CoAEMSP). As an accredited program, MCHS Paramedic Program graduates are eligible to sit for the National Registry of Emergency Medical Technicians (NREMT) Paramedic Level Exam. Many states require successful completion of the NREMT in order to obtain licensure. The list of State Regulatory bodies follows
2. A list of websites of each state's agency which is responsible for licensing of paramedics follows:
